SUMMARY

Experienced Linux Administrator with 3+ years of hands-on experience at Accenture, managing and supporting Red Hat Enterprise Linux (RHEL) systems in enterprise environments. Skilled in system upgrades, maintenance, and patch management of virtual machines to ensure security and stability. Proficient in monitoring system performance using native Linux tools and resolving performance bottlenecks proactively. Adept at troubleshooting user-level and system-level issues, managing user accounts, and ensuring smooth daily operations, shell scripting. Demonstrates strong analytical skills, attention to detail, and the ability to work effectively in fast-paced, client-focused environments.

SKILLS

Linux & Automation : Red Hat Enterprise Linux (RHEL), Linux Administration, Ansible, AWX / Ansible Tower, Shell Scripting, Configuration Management, Server Provisioning, System Monitoring

Cloud & Infrastructure: Virtual Machine Administration, Patch Management, System Upgrades

ITSM Tools: ServiceNow, Incident Management, Change Management, Problem Management

Tools: Putty, MyWizard, AWX, Morpheus

Soft Skills: Problem Solving, Team Collaboration, Effective Communication.

WORK EXPERIENCE

Red Hat Linux Administrator

Accenture

05/2023 - Present

Bengaluru

A technology services company specializing in IT solutions.

- Managed and maintained Red Hat Linux servers, ensuring high availability.
- Implemented security policies and performed system patching through AWX tool.
- Troubleshoot and resolved issues to minimize downtime. Performed regular patching of Red Hat Enterprise Linux (RHEL) servers to ensure system security and compliance with organizational standards.
- Troubleshoot and resolved user-related issues including login failures, permission errors, disk space alerts, and service disruptions.
- Analyzed logs (/var/log, journalctl, etc.) to identify root causes of system errors and prevent recurrence.
- Responded to system alerts and performance thresholds by taking corrective actions and escalating when necessary.

Professional Experience

Accenture — Linux Administrator

Bangalore, India | Jan 2023 – Present

- Managed and administered Red Hat Enterprise Linux (RHEL) servers across enterprise environments ensuring high availability and operational stability.
- Developed and executed Shell Scripts for system monitoring, log analysis, health checks, and maintenance activities.
- Performed server provisioning, configuration management, and patch management activities across Linux environments.
- Implemented infrastructure automation solutions for system deployment, patching, and configuration standardization.
- Collaborated with cross-functional teams to support Infrastructure Transformation initiatives and cloud-based infrastructure projects.
- Managed incidents, service requests, and change activities through ServiceNow while meeting SLA requirements.
- Conducted performance monitoring, capacity management, and root cause analysis for Linux server environments.
- Troubleshoot system, network, and application issues using Linux utilities, system logs, and diagnostic tools.
- Supported Azure-based Linux virtual machines, ensuring security compliance and operational excellence

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Aditya Degree College Kakinada

Affiliated to Adikavi University Rajahmundry

Graduated: 2022

KEY ACHIEVEMENTS

Server Uptime Improvement

- Successfully reduced server downtime by 30% through proactive maintenance.

System Patching Leadership

- Led migration of legacy systems to the latest Red Hat version, enhancing performance.

Additional

- Microsoft Certified: Azure Fundamentals (AZ-900).
- Microsoft Certified: Azure Administrator Associate (Az-104)
